ENJOY 52 HOURS OF CONTINUOUS PLAYBACK & LOSSLESS MUSIC

E50

52 Hours of Long Playback Time
SRS WOW HD / Recording
30fps Video play / Photo (JPEG / BMP)
FLAC Support

Multimedia Player E50

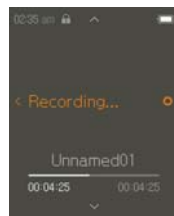

52 hours of unrestricted music trip

E50 is a portable multimedia player optimized for music play. When playing MP3 files, it can play up to 52 hours. It supports SRS WOW HD as well as various sound formats such as WAV and FLAC, which ensures top-quality sound.

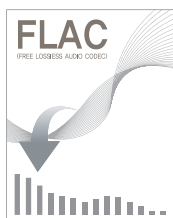

Control the recording system with one touch.

There are many small devices that record voice, but it is hard to find one that you can use with ease. With E50, whenever you need to record voice, all you have to do is just one click from the menu.

Enjoy music without losing anything from the sound with FLAC.

The most important thing in choosing a music player is the sound quality. E50 delivers the authentic feeling of the original sound as it is through FLAC.

Control with the GUI that controls your sensibility.

The main control panel has the most often-used four-direction click area and the volume key arranged in harmony with the shape of the device, and it offers improved sensitivity with D*Click.

30fps video play in a cute, small body

E50 lets you play your favorite video at 30fps on its 1.8" LCD screen. Its small size gives you great portability so that you can carry it around and watch video anywhere you go.

All in a slim, sleek, metal design

Aluminum is used to make E50 classy and slim while stainless steel is used to add strength.

General Information
